TERMS AND CONDITIONS

1. LEGAL AGREEMENT

1.1 This document constitutes a **legally binding contract** between the Policyholder (“User”) and the Insurer (“Company”).

1.2 By enrolling, the User:

- Provides **informed digital consent**, which is legally enforceable under applicable electronic contract laws
- Agrees to **automated underwriting, parametric triggers, and data-based validation mechanisms**
- Accepts that pricing is **dynamic, risk-adjusted, and non-negotiable**

1.3 This agreement supersedes any verbal or informal representations unless they are explicitly documented.

---

2. POLICY NATURE AND STRUCTURE

2.1 Nature of Policy

This policy is a **parametric, non-indemnity, short-duration income protection insurance product**, wherein payouts are determined strictly based on **predefined objective parameters and trigger conditions**, and **not on actual loss verification or assessment**.

2.2 Trigger-Based Compensation Mechanism

Compensation under this policy shall be activated only upon the simultaneous satisfaction of all the following conditions:

- وقوع of a **predefined external event**, including but not limited to natural disasters or hazardous environmental conditions
- Verification of such event through **authorized third-party data sources**, including meteorological, governmental, or platform analytics systems

- Measurable and verifiable **disruption to earning capacity**, as determined by system-generated metrics

For avoidance of doubt:

- Subjective claims, personal declarations, or unverifiable statements **shall not be considered valid grounds** for payout
- The Company shall rely exclusively on **system-validated data inputs**

2.3 Non-Indemnity Clause

This policy operates strictly on a **parametric (index-based) model** and does not function as a traditional indemnity insurance product.

Accordingly:

- The payout amount **may not correspond to the actual financial loss incurred** by the User
- The User **waives any right** to claim compensation based on:
  - Actual loss suffered
  - Opportunity cost
  - Hypothetical or projected earnings

2.4 Scope of Coverage

This policy provides compensation solely for:

- **Temporary and measurable interruption of active income generation**

This policy explicitly **excludes coverage** for:

- Physical damage to property, vehicles, or equipment
- Personal injury, disability, or medical expenses
- Loss or damage to goods, inventory, or third-party assets
- Permanent or long-term loss of employment or income
- Business interruption not directly linked to a covered event

---

2.5 Data-Driven Adjudication Framework

All claims, eligibility determinations, and payouts shall be governed by a **fully or partially automated decision-making system**, which evaluates:

- GPS/location data
- Platform activity logs
- Earnings patterns
- External hazard/event data

The User acknowledges and agrees that:

- Such systems may operate **without manual human intervention**
- Outputs generated by such systems shall be considered **final and binding**, unless formally disputed under Section 23

2.6 Event Qualification Thresholds

For any event to qualify under this policy:

- It must satisfy **minimum duration, severity, and disruption thresholds** as defined in relevant sections of this document
- Events failing to meet such thresholds (e.g., short-duration rain, minor disruptions, localized non-impactful incidents) shall be **automatically excluded**

2.7 No Discretionary Settlement

The Company shall have **no obligation to provide ex gratia, discretionary, or goodwill payments** in cases where:

- Trigger conditions are not satisfied
- Data is incomplete, inconsistent, or unavailable
- The event does not meet predefined eligibility criteria

---

3. ELIGIBILITY CRITERIA

3.1 Basic Eligibility Requirements

To be eligible for coverage under this policy, the User must, at the time of enrollment and throughout the policy period:

- Be **actively engaged** as a delivery or service partner on a recognized digital platform (e.g., food delivery, logistics, or on-demand service platforms)
- Be at least **20 years of age** at the time of enrollment
- Possess valid and verifiable:
  - Government-issued identification
  - Platform account credentials
  - Payment and contact details

For the purposes of this policy, “actively engaged” shall mean:

- Completion of at least **one verified delivery/service activity within the preceding 72 hours**, OR
- Meeting minimum activity thresholds as defined by the Company’s internal metrics

---

3.2 Continuous Eligibility Obligation

Eligibility is **not a one-time condition** and must be maintained throughout the policy duration.

The User shall be deemed **ineligible** if at any time:

- They cease to be active on the platform beyond **7 consecutive days**
- Their account is:
  - Suspended
  - Deactivated
  - Under investigation by the platform
- They fail to meet minimum activity thresholds defined by the Company

In such cases:

- Coverage may be **suspended or terminated without prior notice**
- No claims shall be honored during the period of ineligibility

3.3 Age-Based Risk Classification

The User shall be categorized into risk tiers based on age:

- 20–25 years → Low Risk
- 26–40 years → Medium Risk
- Above 40 years → High Risk

The applicable risk category shall:

- Be determined at the time of enrollment
- Remain fixed for the billing cycle
- Be subject to revision upon:
  - Policy renewal
  - Updated age declaration

3.4 Verification and Underwriting Rights

The Company reserves the absolute right to:

- Conduct **Know Your Customer (KYC)** verification
- Validate:
  - Employment/activity status
  - Historical earnings data
  - Behavioral and operational patterns
- Use **automated underwriting systems and risk-scoring algorithms** to:
  - Approve or reject applications
  - Assign risk categories
  - Modify eligibility conditions

The User expressly agrees that:

- Such decisions may be made **without manual intervention**
- The Company is **not obligated to disclose**:

    - Internal scoring models
    - Risk evaluation criteria
    - Reasons for rejection or modification

3.5 Misrepresentation and Non-Disclosure

If, at any stage, it is found that the User has:

- Provided false, incomplete, or misleading information
- Failed to disclose material facts affecting eligibility

Then:

- The policy shall be deemed **void ab initio (invalid from inception)**
- All claims shall be **rejected**
- The Company may:
    - Terminate the policy immediately
    - Impose penalties or blacklist the User

3.6 Geographic Eligibility

The User must operate within **serviceable geographic regions** defined by the Company.

- Coverage applies only within:
    - Approved cities/zones
    - Regions where hazard/event data can be reliably verified

If the User operates outside such regions:

- Eligibility may be restricted
- Claims may be rejected due to **data insufficiency**

3.7 Edge Case Handling

- Users with **multiple platform accounts**:
    - Must declare all accounts

    - Undeclared accounts may result in claim rejection
- Users switching platforms:
    - Must update details within **48 hours**
    - Failure may lead to temporary ineligibility
- Temporary inactivity due to personal reasons:
    - Not considered valid unless supported by platform data

---

4. PREMIUM CALCULATION

4.1 Premium Determination Formula

The premium payable by the User shall be calculated using the following formula:

Premium = Average Daily Income × Base Rate × Risk Multiplier × Age Multiplier

Where all variables are defined, validated, and applied strictly in accordance with this Policy.

4.2 Definition of Average Daily Income

For the purpose of premium computation:

- "Average Daily Income" shall mean the **system-calculated average earnings per day**, derived from:
    - Platform transaction records
    - Historical earning data (minimum **7–30 days lookback period**, as determined by the Company)

The Company reserves the right to:

- Override or adjust declared income if it is:
    - Inconsistent with platform data
    - Statistically abnormal or manipulated

In case of insufficient data:

- A **default benchmark income** may be assigned based on:

- Location averages
- Platform category norms

4.3 Plan-Based Base Rates

The applicable Base Rate shall depend on the selected plan tier:

- P1 → 7%
- P2 → 10%
- P3 → 20%

The Base Rate:

- Applies uniformly across the billing cycle
- May be revised by the Company at renewal or policy modification

---

4.4 Risk Multipliers (Geographic/Operational Risk)

Risk Multipliers shall be applied based on the User's **primary operating zone**, classified as:

- Low Risk → 1.0
- Medium Risk → 1.1
- High Risk → 1.2

Risk classification shall be determined using:

- Historical disaster frequency
- Environmental vulnerability
- Infrastructure resilience
- Platform service reliability

The Company reserves the right to:

- Dynamically reclassify zones
- Apply updated multipliers at the start of any billing cycle

---

4.5 Age-Based Multipliers

Premium adjustment based on age:

- 20–25 years → 1.0
- 26–40 years → 1.2
- Above 40 years → 1.5

Age shall be calculated based on:

- Verified date of birth from submitted identification documents

Any discrepancy may result in:

- Premium recalculation
- Retroactive adjustments or penalties

4.6 Dynamic Premium Adjustment Mechanism

Premiums under this policy are **not fixed** and may be dynamically revised based on the following factors:

- **Claim History**:
  - Frequent claims may lead to **risk loading (premium increase)**
  - Low/no claims may qualify for **discount adjustments (if applicable)**
- **Geographic Risk Changes**:
  - Increase in disaster frequency or severity
  - Regulatory or environmental updates
- **Platform-Level Risk Indicators**:
  - Order volume volatility
  - Operational downtime trends
- **User Behavior Patterns**:
  - Irregular activity
  - Suspicious earning patterns

All such changes shall:

- Be applied prospectively (not retroactively), unless fraud is detected

- Be communicated through the platform or application interface

---

4.7 Rounding and Minimum Premium Clause

- Premium values shall be:
  - Rounded to the nearest applicable currency unit
- A **minimum premium threshold** may be लागू:
  - Regardless of calculated value, to ensure operational viability

---

4.8 Mid-Cycle Changes and Adjustments

- No changes to premium shall apply during an active billing cycle, except in cases of:
  - Fraud detection
  - Misrepresentation
  - Data correction
- Any updates due to:
  - Plan change
  - Location change
  - Age band transition

Shall take effect only from the **next billing cycle**

4.9 Edge Case Handling

- **Income Spikes** (e.g., festival earnings):
  - May be normalized to prevent inflated premium calculation
- **Zero or Low Activity Periods**:
  - Default or historical average may be used
- **Multiple Income Sources**:
  - Only **verified platform earnings** shall be considered
- **Manual Overrides**:

- Company retains the right to override any computed premium in case of:
  - Data inconsistency
  - System anomalies

---

5. COVERAGE AND BENEFITS

5.1 Scope of Coverage

This policy provides compensation strictly for **temporary, measurable, and verifiable disruption of active income generation** resulting directly from a covered event.

For clarity:

- Coverage applies only when the User's ability to earn is **substantially impacted due to an eligible event**
- The disruption must be:
  - **Event-driven**, AND
  - **Quantifiable through system-validated data**

This policy does **not guarantee income**, but provides conditional compensation subject to all eligibility and trigger requirements.

5.2 Nature of Compensation

Compensation under this policy shall be:

- **Fixed and formula-based**, not discretionary
- Paid on a **per-day basis**, subject to eligibility for each affected day
- Determined using **pre-approved income benchmarks**

The User acknowledges that:

- Compensation may differ from actual losses incurred
- No reassessment or negotiation of payout amounts shall be permitted

---

5.3 Payout Structure by Plan

Eligible payout per day shall be calculated as follows:

- **P1 Plan** → 70% of approved average daily income
- **P2 Plan** → 100% of approved average daily income
- **P3 Plan** → 100% of approved average daily income

Payout shall be:

- Applicable only for days where:
  - Event conditions are met
  - Disruption thresholds are satisfied
- Subject to reductions under partial disruption conditions (see relevant section)

5.4 Maximum Payout Limit

The maximum payable amount shall be strictly capped at:

- The **verified and approved average daily income** determined at onboarding or subsequent validated updates

Under no circumstances shall:

- Payout exceed declared and approved income
- Additional compensation be provided for:
  - Incentives, bonuses, or surge earnings unless explicitly included in the income calculation model

---

5.5 Daily and Event-Level Limits

- Payout is calculated on a **per-day basis**, with each day independently evaluated
- Total payout for a single event shall be limited to:
  - The number of **eligible disruption days**, subject to:
    - Event duration
    - Policy conditions
    - Maximum liability clauses

5.6 Partial Disruption Adjustment

Where the User continues to earn partially during a covered event:

- Compensation shall be **proportionally reduced** based on:
  - Actual earnings vs expected earnings

If:

- Earnings ≥ defined threshold → payout may be reduced or nullified
- Earnings are minimal or zero → full payout eligibility applies

---

5.7 Minimum Disruption Requirement

No payout shall be made unless:

- The disruption meets **minimum threshold conditions**, including:
  - Time duration (e.g., minimum hours of disruption)
  - Percentage reduction in earning capacity

Short-term or negligible disruptions shall not qualify.

5.8 Non-Accumulation Clause

- Unused coverage benefits:
  - Cannot be carried forward
  - Cannot be accumulated across periods
- Each claim is:
  - Evaluated independently
  - Limited strictly to the event duration

5.9 Edge Case Handling

- **Short-duration disruptions (< threshold)**:
  - Not eligible for payout
- **Multiple disruptions within same day**:
  - Aggregated and evaluated as a single day

- **Back-to-back event days**:
  - Treated as continuous claim period (subject to limits)
- **User inactive during event**:
  - No payout, even if event qualifies
- **Mismatch in income data during claim period**:
  - Lower verified value shall be considered

5.10 Finality of Payout Determination

All payout calculations shall be:

- Performed using **automated systems and predefined formulas**
- Based solely on:
  - Verified data inputs
  - Approved income benchmarks

The Company's determination of payout shall be:

- **Final and binding**, unless formally disputed under the dispute resolution clause

---

6. EVENT DURATION & MINIMUM TRIGGER CONDITIONS (CRITICAL ADDITION)

6.1 Mandatory Trigger Conditions

A hazard or disaster event shall qualify for claim consideration **only if ALL of the following conditions are satisfied simultaneously**:

- The event persists for a minimum of **6 (six) continuous hours**, without material interruption
- The event results in a **measurable disruption of ≥ 50%** in the User's earning capacity, as determined by system-validated metrics
- The event is **verified and classified** through authorized data sources

Failure to meet any one of the above conditions shall render the event **ineligible for claim purposes**.

6.2 Definition of “Continuous Duration”

For the purpose of this policy:

- “Continuous” shall mean:
  - No interruption exceeding **60 minutes** between hazard conditions
- If interruption exceeds 60 minutes:
  - The event shall be treated as **separate segments**, subject to aggregation rules (see Clause 6.4)

6.3 Measurement of Disruption

Disruption shall be assessed using:

- Platform-level order volume reduction
- User-specific earnings drop
- Regional service availability metrics

For clarity:

- A disruption is considered valid only if:
  - Verified decline ≥ 50% compared to:
    - Historical average, OR
    - Expected baseline earnings
- Minor slowdowns, demand fluctuations, or peak-hour variations shall **not qualify**

6.4 Multi-Phase and Intermittent Events

Where an event occurs in **non-continuous segments**, the following rules apply:

- Total cumulative duration must exceed **8 hours within a rolling 24-hour window**

- Each interruption gap must not exceed **3 hours** to be considered part of the same event

If gaps exceed 3 hours:

- Events shall be treated as **independent occurrences**, each subject to minimum duration requirements

---

6.5 Rain and Weather-Specific Conditions

Rain-only or weather-related events shall qualify only if:

- Classified under:
  - **Heavy rain**, **red/orange alert**, or equivalent severe weather advisory issued by recognized authorities
- Persist continuously for **≥ 6 hours**
- Result in **verified operational disruption ≥ 50%**

The following shall NOT qualify:

- Light or moderate rainfall
- Drizzle or intermittent showers
- Localized weather not impacting operational zones

6.6 Short-Duration Hazard Exception

Events lasting less than **6 continuous hours** shall be deemed **ineligible**, except where:

- The event is officially declared as:
  - A **disaster/emergency** by government authorities, AND
- It results in:
  - Immediate large-scale operational shutdown

In such cases:

- The Company reserves the right to:
  - Override duration requirements based on severity indicators

---

6.7 Start and End Time Determination

The start and end of an event shall be determined based on:

- Earliest and latest timestamps derived from:
  - Verified external data (e.g., weather systems, alerts)
  - Platform disruption logs

User-reported timestamps shall:

- Not be considered unless validated by system data

6.8 Geographic Consistency Requirement

For an event to qualify:

- The User must remain within the **affected geographic zone** during:
  - The majority (>50%) of the event duration

If the User:

- Enters or exits the zone mid-event:
  - Only the time spent within the affected zone shall be considered

---

6.9 Overlapping and Escalating Events

- If multiple hazards overlap (e.g., rain + flooding):
  - They shall be treated as a **single composite event**
- If a minor event escalates into a major disaster:
  - Duration shall be counted **from the point of escalation**, unless:
    - Earlier phase independently meets eligibility

6.10 Edge Case Exclusions

The following scenarios shall NOT qualify:

- Events meeting duration criteria but causing **< 50% disruption**
- Events meeting disruption criteria but lasting **< required duration**
- Artificial or manipulated inactivity by the User

- Platform outages not linked to a verified hazard

6.11 Final Authority and Determination

All determinations regarding:

- Event duration
- Severity classification
- Disruption percentage

Shall be made by the Company using:

- Automated systems
- Verified third-party data sources

Such determinations shall be:

- **Final, binding, and not subject to subjective interpretation**, except through formal dispute mechanisms

---

7. WAITING PERIOD

7.1 Definition of Waiting Period

The “Waiting Period” refers to the **initial time duration following policy activation, renewal, or reactivation**, during which:

- The User is **not eligible to receive any claim payout**, irrespective of event occurrence
- Coverage remains **inactive for claim purposes**, though the policy is considered in force

The applicable waiting periods are:

- **P1 Plan** → 3 (three) days
- **P2 Plan** → 14 (fourteen) days
- **P3 Plan** → No waiting period (immediate eligibility, subject to all other conditions)

7.2 Commencement of Waiting Period

The waiting period shall commence from:

- The **exact timestamp of policy activation**, OR
- The **start of a new billing cycle**, in case of:
  - Plan upgrade or downgrade
  - Policy reactivation after lapse
  - Re-enrollment after termination

7.3 Events Occurring During Waiting Period

If a covered event:

- Begins during the waiting period, AND
- Continues beyond the waiting period

Then:

- Coverage shall apply **only to the portion of the event occurring AFTER the waiting period ends**, provided all other eligibility conditions are met

---

7.4 Events Fully Within Waiting Period

If a covered event:

- Occurs entirely within the waiting period

Then:

- Such event shall be **completely excluded**, and
- **No claim shall be payable**, regardless of severity or impact

---

7.5 Continuous and Overlapping Events

Where:

- An event starts during the waiting period and continues after, AND
- The post-waiting portion independently satisfies:
  - Minimum duration

    - Disruption thresholds

Then:

- Only the **eligible portion after the waiting period** shall be considered

If the remaining duration after the waiting period:

- Falls below minimum trigger thresholds
- Then the **entire claim shall be deemed invalid**

7.6 Waiting Period Reset Conditions

The waiting period shall **reset and reapply in full** under the following circumstances:

- Policy reactivation after lapse or non-payment
- Plan change (upgrade or downgrade)
- Correction of misrepresentation or data modification affecting underwriting
- Re-enrollment after termination

7.7 No Retroactive Coverage

Under no circumstances shall:

- Coverage be applied retroactively to:
    - Events occurring before policy activation
    - Events occurring during the waiting period

Any attempt to claim for such events shall result in:

- Immediate claim rejection
- Possible fraud review (if intent is suspected)

7.8 Edge Case Handling

- **Multiple events during waiting period**:
    - All such events are excluded
- **Short event crossing waiting boundary**:

    - Only considered if post-waiting portion meets minimum duration rules
- **User inactivity during waiting period**:
    - Does not extend or pause the waiting period
- **Simultaneous plan upgrade during event**:
    - New plan benefits apply only after:
        - Completion of new waiting period (if applicable)

7.9 No Waiver Clause

The waiting period is:

- **Mandatory and non-negotiable**
- Not subject to:
    - Waiver
    - Reduction
    - Exception

Except where explicitly stated under the P3 plan.

7.10 Final Determination

All determinations regarding:

- Waiting period applicability
- Event overlap calculations
- Eligibility post waiting period

Shall be made by the Company using:

- System-generated timestamps
- Verified data sources

Such determinations shall be **final and binding**.

---

8. DEFINITION OF COVERED EVENTS

8.1 Covered events include:

- Floods
- Cyclones
- Earthquakes
- Landslides
- Severe rainfall (subject to duration rules)
- Government-declared emergencies

8.2 Edge Cases:

- Light/moderate rain → Not covered
- Traffic congestion → Not covered
- Platform outages alone → Not covered unless linked to a disaster

8.3 Events must be validated by:

- Government alerts
- Meteorological data
- Platform-level disruption analytics

---

9. CLAIM ELIGIBILITY CONDITIONS

A claim shall be considered valid **only if ALL conditions set forth in this Section are strictly satisfied**. Failure to meet any single condition shall result in **automatic claim rejection**.

9.1 Activity Requirement

The User must demonstrate **recent and consistent platform activity**, defined as:

- Completion of at least one verified service/delivery activity within the **preceding 72 hours** prior to the event start time

Additionally:

- The User must not be:

    - Inactive for more than **7 consecutive days** prior to the event
    - Under platform suspension, restriction, or investigation

If the User fails to meet these conditions:

- The claim shall be deemed **invalid**, irrespective of event occurrence

---

9.2 Location and Geographic Presence Requirement

The User must:

- Be physically present within the **geographically affected zone** during the event

Presence shall be determined using:

- GPS tracking data
- Platform location logs
- Network-based positioning systems

Additional conditions:

- The User must remain within the affected zone for **≥ 50% of the eligible event duration**
- If the User enters or exits the zone:
    - Only the time spent within the affected zone shall be considered

Claims shall be rejected if:

- Location data is:
    - Missing
    - Inconsistent
    - Suspected to be manipulated

9.3 Disruption Requirement

The User must demonstrate a **minimum reduction of ≥ 50% in earning capacity**, calculated as:

- Comparison between:

    - Actual earnings during the event period, AND
    - Expected earnings based on historical averages

Disruption shall be validated using:

- Platform-level order volumes
- Individual earning patterns
- Regional operational data

The following shall NOT qualify as disruption:

- Routine fluctuations in demand
- Voluntary reduction in working hours
- Strategic offline behavior by the User

9.4 Duration and Event Qualification Requirement

The event must satisfy all **minimum trigger conditions** defined under Section 6, including:

- Minimum duration thresholds
- Continuous or cumulative time requirements
- Severity and classification criteria

If the event fails to meet any such condition:

- The claim shall be **automatically disqualified**

9.5 Data Integrity and Verification Requirement

All claim evaluations shall be based exclusively on:

- Verified system-generated data
- Third-party validated event data

The User acknowledges that:

- Self-declared or manually submitted evidence shall not override system data
- In case of discrepancy:

    - System data shall prevail

Incomplete, inconsistent, or unavailable data shall result in:

- Claim rejection without liability on the Company

9.6 Concurrent Condition Satisfaction

All eligibility conditions must be satisfied:

- **Simultaneously within the same event window**

For example:

- Meeting duration but not disruption → Invalid
- Meeting disruption but not location → Invalid

No partial eligibility shall be considered.

9.7 Exclusion Due to External Factors

Claims shall be rejected if disruption is caused by:

- Platform outages not linked to a verified disaster
- Personal circumstances (health, vehicle issues, etc.)
- Law enforcement restrictions not classified as disaster events

---

9.8 Edge Case Handling

- **User active but not accepting orders**:
    - Treated as voluntary inactivity → Not eligible
- **Multiple users in same area with different earnings**:
    - Individual earning pattern shall be considered
- **User switching zones during event**:
    - Only eligible portion in affected zone counted
- **Event qualifies but user logs off intentionally**:
    - No payout
- **Partial data availability**:

- Conservative (lower-bound) estimation may be applied or claim rejected

---

9.9 Final Determination Clause

All determinations regarding:

- Activity status
- Location presence
- Disruption percentage
- Event qualification

Shall be made by the Company using:

- Automated systems
- Verified data sources

Such determinations shall be:

- **Final, binding, and enforceable**, except where challenged under formal dispute procedures

---

10. PARTIAL DISRUPTION HANDLING

10.1 Principle of Proportional Compensation

Where the User continues to earn partially during a covered event, compensation shall be calculated on a **proportional loss basis**, reflecting the degree of disruption to earning capacity.

The payout shall be determined using the following formula:

Payout = Eligible Amount × (1 − (Actual Earnings / Expected Earnings))

Where:

- **Eligible Amount** = Maximum payable daily benefit as per the selected plan
- **Actual Earnings** = Verified earnings during the eligible event period
- **Expected Earnings** = System-calculated baseline earnings derived from historical data

---

10.2 Determination of Expected Earnings

Expected Earnings shall be calculated using:

- Historical average earnings over a **predefined lookback period (e.g., 7–30 days)**
- Adjusted for:
  - Day-of-week trends
  - Time-of-day patterns
  - Seasonal or regional variations

The Company reserves the right to:

- Normalize abnormal spikes or drops
- Apply conservative estimates where data is insufficient

10.3 Earnings Threshold-Based Outcomes

Based on the ratio of Actual Earnings to Expected Earnings:

- **≥ 80% of Expected Earnings**

  → Considered **no material disruption**

  → **No payout shall be made**
- **Between 20% and 80% of Expected Earnings**

  → Considered **partial disruption**

  → **Proportional payout applies** as per formula
- **< 20% of Expected Earnings**

  → Considered **severe disruption**

  → **Full payout eligibility**, subject to other policy conditions

---

10.4 Time-Based Apportionment

Where disruption occurs for only a portion of the day:

- Earnings and expected values shall be:
  - **Prorated based on the eligible time window** of the event

For example:

- If disruption lasts 8 hours in a 24-hour period:
  - Expected earnings shall be adjusted proportionally

10.5 Zero Earnings Scenarios

If the User records **zero earnings** during the eligible event period:

- Full payout shall apply **only if**:
  - All eligibility conditions (activity, location, duration, etc.) are satisfied

If zero earnings are due to:

- Voluntary inactivity
- App logout or refusal to accept orders

Then:

- Claim shall be **rejected or reduced to zero**

10.6 Multi-Event and Multi-Day Handling

- Each day shall be evaluated **independently**
- For continuous multi-day events:
  - Daily payouts shall be calculated separately and aggregated

---

10.7 Data Validation and Adjustment

All earnings data shall be:

- Verified through platform records
- Cross-checked against system analytics

In case of:

- Missing or inconsistent data:
  - The Company may:
    - Apply **conservative estimates**, OR
    - Reject the claim

10.8 Anti-Manipulation Safeguards

The following actions shall be treated as **fraudulent or abusive behavior**:

- Intentionally reducing work to increase payout
- Rejecting or ignoring orders during eligible periods
- Artificial suppression of earnings

Consequences include:

- Claim denial
- Policy termination
- Blacklisting

10.9 Edge Case Handling

- **High expected earnings due to abnormal past data**:
  - May be normalized to prevent unfair payout reduction
- **User working in multiple zones**:
  - Only earnings from affected zone considered
- **Simultaneous incentives/bonuses**:
  - Included only if part of verified earnings data
- **Partial platform outages**:
  - Considered only if linked to a qualifying event

10.10 Final Determination

All calculations relating to:

- Expected earnings
- Actual earnings
- Disruption percentage
- Final payout

Shall be performed using:

- Automated systems and predefined algorithms

Such determinations shall be:

- **Final, binding, and non-negotiable**, except through formal dispute resolution

---

11. MULTIPLE AND OVERLAPPING EVENTS

11.1 Definition of a Single Event

For the purposes of this policy, multiple hazards or disruptions shall be treated as a **single composite event** if:

- They occur within a continuous **24-hour rolling window**, AND
- They impact the same or overlapping geographic zones, AND
- There is no interruption exceeding the permissible limits defined under Section 6

Such events shall:

- Be aggregated into a **single claim instance**
- Be subject to:
  - One payout calculation framework
  - One set of eligibility validations

11.2 Overlapping and Concurrent Hazards

Where two or more hazards occur simultaneously (e.g., heavy rainfall combined with flooding):

- They shall be treated as a **single unified event**, regardless of hazard type

In such cases:

- The **most severe classification** shall be considered for:
  - Event qualification
  - Disruption assessment

No separate or duplicate claims shall be permitted for overlapping hazards.

11.3 Sequential Events and Gap Requirement

Events shall be considered **separate and independently claimable** only if:

- A minimum gap of **7 (seven) full days** exists between:
  - The end timestamp of the first event, AND
  - The start timestamp of the subsequent event

If this condition is not met:

- Events shall be merged and treated as a **single continuous event**

11.4 Continuous and Prolonged Disasters

For disasters extending over multiple days:

- Payout shall be calculated on a **per-day basis**, subject to:
  - Daily eligibility validation
  - Partial disruption adjustments (if applicable)

The total payout for such events shall be:

- The sum of all **eligible daily payouts**, within policy limits

---

11.5 Event Splitting Restrictions

The User shall not be permitted to:

- Split a single continuous or overlapping event into multiple claims
- Submit multiple claims for the same event period

Any attempt to do so shall be treated as:

- **Fraudulent behavior**, resulting in:
  - Claim rejection
  - Policy termination

11.6 Event Boundary Determination

The start and end of an event shall be determined based on:

- Verified external hazard data

- Platform-level disruption logs

In case of ambiguity:

- The Company shall define event boundaries using:
  - Earliest confirmed start time
  - Latest confirmed end time

Such determination shall be **final and binding**.

11.7 Edge Case Handling

- **Back-to-back events within 24 hours**:
  - Treated as a single event
- **Events separated by short gaps (< 7 days)**:
  - Aggregated into one event
- **Different hazard types in same period**:
  - Treated as one composite event
- **User present in multiple affected zones**:
  - Only one claim allowed based on primary zone of activity
- **Event weakens and re-intensifies within short period**:
  - Considered continuous if within permissible interruption limits

---

11.8 Anti-Stacking Clause

Under no circumstances shall the User:

- Receive multiple payouts for:
  - The same time period
  - Overlapping disruptions

The policy strictly prohibits:

- Claim stacking
- Double compensation

11.9 Final Determination

All determinations regarding:

- Event classification
- Overlap assessment
- Gap calculation
- Claim grouping

Shall be made using:

- Automated systems
- Verified third-party data

Such determinations shall be:

- **Final, binding, and enforceable**

---

12. CLAIM PROCESS

12.1 Claim Intimation Timeline

The User must initiate (intimate) a claim within **7 (seven) calendar days** from:

- The **end of the eligible event**, OR
- The **date on which the User becomes aware of the disruption**, whichever is earlier

Failure to intimate within this period shall result in:

- **Automatic rejection of the claim**, except where:
  - Delay is demonstrably caused by extreme circumstances (e.g., severe infrastructure breakdown), subject to Company approval

---

12.2 Mode of Claim Submission

Claims must be submitted through:

- The official application/platform interface, OR
- Any other channel explicitly authorized by the Company

Submissions through:

- Unofficial channels (email, verbal communication, third parties)
- Shall not be considered valid unless formally recorded in the system

---

12.3 Mandatory Data and Documentation Requirements

The User must provide complete and accurate data, including but not limited to:

- **Identity Proof**:
  - Government-issued identification (as per KYC records)
- **Location Data**:
  - GPS logs or system-captured location records during the event period
- **Platform Activity Records**:
  - Verified logs of deliveries, orders, or service activity
- **Earnings Data**:
  - Income records corresponding to the event period
- **External Event Validation**:
  - Data from recognized sources (automatically or manually integrated), including:
    - Weather reports
    - Government alerts
    - Disaster notifications

12.4 Data Sufficiency and Integrity

A claim shall be processed only if:

- All required data is:
  - **Complete**
  - **Consistent**
  - **Verifiable**

In cases where:

- Data is missing, corrupted, inconsistent, or unverifiable
- The Company may:
  - Request additional information within a defined timeframe, OR
  - Reject the claim without liability

The User bears full responsibility for:

- Ensuring data availability and accuracy

12.5 Automated Claim Assessment

All claims shall be evaluated using:

- Automated decision-making systems
- Predefined eligibility, disruption, and validation algorithms

The User acknowledges that:

- Claims may be processed **without manual intervention**
- System-generated outcomes shall be **binding**, subject to dispute provisions

---

12.6 Claim Processing Timeline

Upon receipt of a **complete and valid claim submission**, the Company shall:

- Process and communicate the outcome within **5 to 10 working days**

This timeline may be extended in cases of:

- Large-scale disasters
- High claim volumes
- Data verification delays

Such extensions shall not constitute a breach of obligation.

12.7 Payout Disbursement

Upon approval:

- Payout shall be credited to the User's:

    - Registered bank account, OR
    - Authorized payment method

Delays caused by:

- Banking systems
- Payment gateways

Shall not be attributable to the Company.

12.8 Claim Rejection and Communication

If a claim is rejected:

- The User shall be notified through the platform with:
    - A general reason for rejection

The Company is not obligated to disclose:

- Detailed internal calculations
- Algorithmic decision parameters

12.9 Multiple Claims Handling

- Only one claim may be submitted per event (as defined in Section 11)
- Duplicate or repeated claims for the same event shall be:
    - Automatically rejected
    - Flagged for fraud review

12.10 Edge Case Handling

- **Late submission due to disaster impact**:
    - May be considered on a case-by-case basis
- **Partial data availability**:
    - Claim may be processed using conservative estimates or rejected
- **User unable to submit due to technical issues**:
    - Must provide verifiable proof of such failure

- **Bulk event (mass claims scenario)**:
  - Processing timelines may be extended proportionally

12.11 Final Determination

All decisions regarding:

- Claim validity
- Data sufficiency
- Processing timelines
- Payout approval or rejection

Shall be made by the Company using:

- Verified data sources
- Automated systems

Such decisions shall be:

- **Final, binding, and enforceable**, subject only to formal dispute resolution mechanisms

---

13. EXCLUSIONS

The Company shall **not be liable to provide any compensation** under this policy for losses, disruptions, or claims arising directly or indirectly from any of the following circumstances:

13.1 Voluntary Inactivity and User-Controlled Actions

- Voluntary decision by the User to:
  - Not log in to the platform
  - Refuse or ignore orders
  - Reduce working hours without external compulsion
- Strategic or intentional behavior aimed at:
  - Increasing claim eligibility

    - Artificially reducing earnings

Such actions shall be treated as **self-induced loss**, and no compensation shall be payable.

13.2 Personal Circumstances

Loss of income arising from:

- Personal health issues, injury, or fatigue
- Vehicle breakdown or maintenance issues
- Family or personal obligations
- Financial or psychological factors

These are considered **individual risks**, not covered under this policy.

13.3 Platform-Related Actions

- Account suspension, deactivation, or banning by the platform
- Reduced order allocation due to:
    - Poor performance
    - Low ratings
    - Algorithmic prioritization
- Platform-specific restrictions not linked to a verified disaster event

Such scenarios shall be treated as **operational or performance-related issues**, and are not covered.

13.4 Fraud, Misrepresentation, and Data Manipulation

Any claim involving:

- False declarations of income or activity
- GPS spoofing or location manipulation
- Artificial suppression of earnings
- Submission of forged, altered, or misleading data

Shall result in:

- Immediate claim rejection
- Policy termination
- Potential blacklisting and legal action

13.5 Non-Qualifying Events

Events that do not meet the **minimum trigger conditions** defined under Section 6, including:

- Duration below required thresholds
- Disruption below required percentage
- Events lacking official or verifiable classification

Shall be **automatically excluded**, regardless of perceived impact.

13.6 Minor or Routine Environmental Conditions

The following shall not be considered valid hazard events:

- Light or moderate rainfall
- Drizzle or intermittent weather conditions
- Routine traffic congestion
- Normal seasonal variations

Only **severe, validated, and threshold-meeting conditions** shall qualify.

13.7 Platform Downtime (Standalone)

- Technical issues, app crashes, or server downtime of the platform
- Payment delays or system glitches

Shall not be covered unless:

- Directly linked to a **verified external disaster event**

13.8 Geographic Mismatch

Claims shall be rejected where:

- The User is not present in the affected zone

- The event occurs outside the User’s operational area
- Location data cannot confirm presence in the impacted region

---

13.9 Data Unavailability or Inconsistency

Claims shall not be honored where:

- Required data (GPS, earnings, activity logs) is:
  - Missing
  - Incomplete
  - Inconsistent
- Data integrity cannot be verified

13.10 Pre-Existing or Ongoing Conditions

- Events that began **before policy activation** or during the waiting period
- Ongoing disruptions not linked to a new qualifying event

Shall not be eligible for claims.

13.11 External Non-Disaster Restrictions

Losses caused by:

- Law enforcement restrictions
- Curfews or administrative orders not classified as disasters
- Political events, protests, or strikes

Shall not be covered unless explicitly declared as a qualifying disaster event.

13.12 Double Compensation and Overlapping Coverage

- Any loss already compensated by:
  - Another insurance policy
  - Employer/platform compensation scheme

Shall not be eligible for additional payout under this policy.

13.13 Forceful or Illegal Activities

Losses arising from:

- Participation in illegal activities
- Violation of platform terms or local laws

Shall be excluded from coverage.

13.14 Edge Case Exclusions

- **User online but inactive intentionally** → Not eligible
- **High earnings despite event** → No disruption → No payout
- **Event qualifies but user logs off voluntarily** → Not covered
- **Multiple small disruptions below threshold** → Not aggregated unless rules satisfied

---

13.15 Absolute Exclusion Clause

The above exclusions are:

- **Non-exhaustive and illustrative**, and
- The Company reserves the right to deny claims for any scenario that:
  - Falls outside the defined scope of coverage, OR
  - Violates the intent of the policy

---

14. FRAUD DETECTION

14.1 Definition of Fraud

For the purposes of this policy, “Fraud” shall include **any intentional act, omission, manipulation, or misrepresentation** by the User aimed at:

- Obtaining undue financial benefit
- Circumventing policy conditions
- Manipulating eligibility, disruption metrics, or payout calculations

Fraud may be determined through **direct evidence, pattern analysis, or algorithmic detection models**.

14.2 Illustrative Fraudulent Activities

Fraudulent behavior includes, but is not limited to:

- **Location Manipulation**:
  - GPS spoofing
  - Use of VPNs, emulators, or tools to falsify geographic presence
- **Earnings Manipulation**:
  - Artificial suppression or inflation of earnings
  - Use of secondary accounts to influence earning patterns
- **Coordinated or Strategic Inactivity**:
  - Deliberate refusal of orders during eligible events
  - Group-based manipulation to simulate disruption
- **False Data Submission**:
  - Submission of forged, altered, or misleading documents
  - Tampering with activity logs or timestamps
- **Multiple Account Abuse**:
  - Use of undeclared or duplicate accounts
  - Cross-account manipulation to maximize payout
- **System Exploitation Attempts**:
  - Reverse engineering or attempting to bypass system logic
  - Exploiting known or unknown technical vulnerabilities

14.3 Detection Mechanisms

The Company employs **advanced fraud detection systems**, including but not limited to:

- Real-time GPS and geofencing validation

- Behavioral analytics and anomaly detection
- Cross-user pattern correlation
- Platform-integrated data verification
- Machine learning–based fraud scoring models

The User acknowledges that:

- Monitoring may be **continuous and automated**
- Fraud detection may rely on **probabilistic and pattern-based analysis**, not solely direct proof

---

14.4 Investigation Rights

The Company reserves the right to:

- Conduct **detailed investigations** into suspicious activity
- Request additional data, documentation, or clarification
- Temporarily **suspend claims or accounts** during investigation

Failure to cooperate may result in:

- Immediate claim rejection
- Policy termination

14.5 Consequences of Fraud

If fraud is detected or reasonably suspected:

- All pending and future claims shall be **rejected**
- The policy shall be **immediately terminated** without refund
- The User shall be **permanently blacklisted** from future enrollment

Additionally, the Company may:

- Recover any previously paid amounts
- Share information with:
    - Partner platforms

    - Regulatory or legal authorities

14.6 Legal and Financial Liability

Fraudulent actions may result in:

- Civil liability, including recovery of damages and losses
- Criminal proceedings under applicable laws
- Financial penalties as determined by legal authorities

14.7 Zero-Tolerance Policy

The Company follows a **zero-tolerance approach** toward fraud.

- Even minor or attempted fraudulent activity may trigger:
    - Full policy termination
    - Blacklisting

No warnings or corrective opportunities are guaranteed.

14.8 False Positives and Dispute Handling

In cases where:

- A User believes a fraud flag is incorrect

They may:

- Initiate a dispute under Section 23

However:

- The burden of proof lies with the User
- System-generated evidence shall carry **primary evidentiary weight**

14.9 Edge Case Handling

- **Unusual but legitimate earning patterns**:
    - May be flagged but reviewed before final action
- **Temporary GPS inconsistencies due to technical issues**:
    - Evaluated using multi-source validation

- **Mass behavioral anomalies during disasters**:
  - Assessed using regional benchmarks to avoid false fraud flags

---

14.10 Final Determination

All determinations relating to:

- Fraud identification
- Investigation outcomes
- Penalties and enforcement

Shall be made by the Company using:

- Verified data
- Automated systems
- Internal risk frameworks

Such determinations shall be:

- **Final, binding, and enforceable**, subject only to formal dispute mechanisms

---

15. PLATFORM-RELATED EDGE CASES

15.1 Platform Downtime (Standalone Events)

In the event of:

- Application/server downtime
- Technical failures
- Payment system issues
- Order allocation system malfunctions

Where such issues are **not directly caused by a verified external disaster event**:

- **No compensation shall be payable** under this policy

Such incidents shall be classified as **platform operational risks**, outside the scope of coverage.

15.2 Demand Fluctuation and Order Reduction

Where the User experiences:

- Reduced order volume
- Lower earnings due to:
  - Market demand fluctuations
  - Competition among delivery partners
  - Algorithmic order distribution

And such conditions are **not linked to a qualifying disaster event**:

- The situation shall be treated as **normal business variability**
- **No claim shall be valid**

15.3 Combined Platform Disruption and Disaster Events

Where both:

- A verified disaster event occurs, AND
- Platform disruption (partial or full) occurs simultaneously

Then:

- Only the **portion of income loss directly attributable to the disaster event** shall be considered for payout

For clarity:

- Losses caused purely by platform failure shall be **excluded**, even if occurring during a disaster

---

15.4 Attribution of Cause (Critical Clause)

In scenarios where multiple contributing factors exist:

- The Company shall determine the **primary cause of disruption** using:
  - Platform diagnostics
  - External event data
  - Regional activity patterns

If:

- Disaster impact is **not the dominant cause (>50%)** of disruption
- Then the claim shall be:
  - Reduced proportionally, OR
  - Rejected entirely

15.5 Partial Platform Availability

If the platform:

- Remains operational but with reduced efficiency (e.g., fewer orders, slower matching):

Then:

- This shall qualify for payout **only if**:
  - A verified disaster event is present, AND
  - Disruption thresholds (≥ 50%) are satisfied

Otherwise:

- No compensation shall be payable

15.6 User-Specific Platform Issues

The following shall NOT qualify for claims:

- Account-specific technical issues
- Login failures due to user device problems
- App crashes limited to the User's device
- Connectivity issues (mobile data/Wi-Fi failure)

These are considered **individual technical issues**, not system-wide disruptions.

15.7 Multi-Platform Activity

If the User operates across multiple platforms:

- Only the **declared and verified platform** at the time of enrollment shall be considered

If:

- One platform is down but others are functional
- Then:
  - Expected earnings shall be adjusted accordingly
  - Claims may be reduced or denied based on actual earning potential

---

15.8 Platform Policy or Algorithm Changes

Losses due to:

- Changes in platform policies
- Updates to order allocation algorithms
- Incentive structure modifications

Shall be treated as **business/operational changes** and are **not covered**.

15.9 Edge Case Handling

- **Platform outage coinciding with light rain (non-qualifying event)**:
  - No payout
- **Platform outage + qualifying disaster**:
  - Only disaster-induced loss considered
- **User logs off due to platform lag during disaster**:
  - Evaluated based on:
    - Overall system disruption
    - Verified data patterns
- **Region-specific platform downtime**:
  - Considered only if:
    - Linked to a verified disaster

        - Meets disruption thresholds

15.10 Final Determination

All determinations regarding:

- Cause attribution
- Platform vs disaster impact
- Eligibility and payout adjustments

Shall be made using:

- Platform diagnostics
- External verified data
- Automated decision systems

Such determinations shall be:

- **Final, binding, and non-negotiable**, except through formal dispute mechanisms

---

16. LOCATION & DATA VALIDATION

16.1 Mandatory Location Tracking Requirement

The User shall ensure that **location services (GPS)** are:

- Enabled at all times during:
    - Active working hours
    - Any period relevant to claim evaluation
- Configured to allow:
    - High-accuracy tracking
    - Continuous background access by the application

Failure to maintain active location tracking shall result in:

- **Ineligibility for claims**, regardless of event occurrence

---

16.2 Authorized Data Sources

All eligibility determinations and claim validations shall rely exclusively on **system-verified data sources**, including:

- **Mobile GPS Data**:
  - Real-time and historical location coordinates
- **Platform Activity Logs**:
  - Login sessions, order acceptance/rejection, delivery records
- **Earnings and Transaction Data**:
  - Verified income records from platform systems
- **Third-Party Data Sources**:
  - Weather APIs
  - Government alerts
  - Disaster monitoring systems

The Company reserves the right to:

- Integrate additional data sources
- Modify or replace existing data sources without prior notice

---

16.3 Data Accuracy and Integrity Requirements

All data used for claim assessment must be:

- **Accurate**
- **Complete**
- **Consistent across sources**

The User acknowledges that:

- System-generated data shall be considered the **primary and authoritative source**
- Any discrepancy between:
  - User-provided data and system data

→ Shall be resolved in favor of system records

16.4 Missing, Incomplete, or Inconsistent Data

Claims shall be **automatically rejected** if:

- Required data is:
  - Missing
  - Incomplete
  - Corrupted
- Data across sources:
  - Shows inconsistencies
  - Cannot be reliably reconciled

The Company shall have no obligation to:

- Reconstruct missing data
- Accept alternative or manually submitted evidence

16.5 Location Verification Thresholds

For a claim to be valid:

- The User must be present within the **affected geographic zone** for at least:
  - **50% of the verified event duration**

If location data indicates:

- Frequent switching between zones
- Implausible movement patterns

Then:

- The claim may be:
  - Rejected, OR
  - Subjected to fraud investigation

16.6 Technical Failure and Exception Handling

In cases where data loss occurs due to:

- Device malfunction
- Application crash
- Network failure

The following shall apply:

- The User must provide **verifiable proof** of such failure
- The Company may:
  - Use secondary data sources, OR
  - Apply conservative estimates, OR
  - Reject the claim

No guarantee of acceptance is provided in such scenarios.

16.7 Anti-Tampering and Security Measures

Any attempt to:

- Disable tracking during critical periods
- Use tools to manipulate location data
- Interfere with data collection mechanisms

Shall be treated as:

- **Fraudulent activity**, subject to actions under Section 14

16.8 Data Retention and Usage

The Company may:

- Store and process User data for:
  - Claim validation
  - Risk modeling
  - Fraud detection
- Retain such data for a period deemed necessary under:

    - Legal
    - Operational
    - Regulatory requirements

16.9 Edge Case Handling

- **GPS ON but inaccurate (low signal areas)**:
    - Cross-verification with platform logs
- **User indoors or underground (e.g., parking areas)**:
    - Secondary signals (network, activity logs) may be used
- **Short gaps in tracking (<30 minutes)**:
    - May be interpolated using surrounding data
- **Extended gaps in tracking (>30 minutes)**:
    - May result in:
        - Partial claim reduction, OR
        - Full rejection

16.10 Final Determination

All determinations regarding:

- Location presence
- Data validity
- Data sufficiency

Shall be made by the Company using:

- Automated systems
- Verified multi-source data

Such determinations shall be:

- **Final, binding, and enforceable**, except through formal dispute resolution

---

17. PREMIUM PAYMENT TERMS (UPDATED WITH PENALTIES)

17.1 **Payment Frequency**

- Premiums are payable on a **weekly basis**, in advance of coverage.

17.2 **Grace Period**

- A grace period of **48 hours** from the due date is allowed.
- During the grace period:
  - Policy remains **active**
  - Claims remain **valid**

17.3 **Late Payment Penalty (Fine Structure)**

If payment is not made within the due date, the following penalties apply:

A. Within Grace Period (0–48 hours late)

- Late fee: **2% of weekly premium**
- Policy status: **Active**

B. Post Grace Period (48–96 hours late)

- Late fee: **5% of weekly premium**
- Policy status: **Conditionally Active**, with restrictions:
  - No claims allowed for events occurring during this delay window

---

C. Extended Delay (96 hours – 7 days late)

- Late fee: **10% of weekly premium**
- Policy status: **Suspended**
- Consequences:
  - No claim eligibility

- Waiting period resets upon reactivation

D. Beyond 7 Days Delay

- Policy status: **Automatically Terminated**
- Consequences:
  - Re-enrollment required
  - Fresh underwriting and pricing applicable
  - Previous benefits and continuity are forfeited

17.4 **Penalty Cap**

- Total late fee shall not exceed **15% of the weekly premium**

17.5 **Repeated Delay Violations**

If the User delays premium payment:

- **3 times within 60 days**, then:
  - Additional **risk loading of +5% premium** applied
- **5 times within 90 days**, then:
  - Policy may be:
    - Downgraded to a lower plan, OR
    - Permanently terminated

17.6 **Payment Failure Scenarios (Edge Cases)**

17.6.1 If failure occurs due to:

- Bank/server issues
- Payment gateway failure

Then:

- User must provide **proof of failed transaction**
- Late fee **may be waived at Company discretion**

17.6.2 If failure occurs due to:

- Insufficient balance
- User negligence

Then:

- Full penalty applies without exception

17.7 **Reactivation Rules**

- Reactivation allowed only after:
  - Full premium + penalty payment
- Additional consequences:
  - **Waiting period restarts**
  - No retroactive coverage for missed period

17.8 **No Coverage During Default Period**

- No claims shall be honored for:
  - Any event occurring during:
    - Payment delay (post grace period)
    - Suspension period

17.9 **Auto-Debit and Authorization**

- User authorizes:
  - Automatic deduction of premiums and penalties (if enabled)
- Failure of auto-debit:
  - Does NOT waive penalty obligations

---

18. PLAN MODIFICATION RULES

18.1 Permissibility of Plan Modification

The User may request a change in plan (upgrade or downgrade) **only at the end of an active billing cycle**.

- No mid-cycle modifications shall be permitted, except in cases of:
  - System correction
  - Verified administrative error

All modification requests shall:

- Be submitted through authorized channels
- Be subject to Company approval

18.2 Restriction During Active or Imminent Events

Plan modifications shall be **strictly prohibited** during:

- Any **ongoing disaster or hazard event**
- Any period where:
  - A qualifying event has already started, OR
  - There is a **reasonable likelihood of an imminent event**, as determined by:
    - Weather alerts
    - Government warnings
    - System risk indicators

Any attempt to modify the plan during such periods:

- Shall be **automatically blocked or reversed**
- May be flagged for **fraud review**

18.3 Effective Date of Plan Change

Approved plan modifications shall:

- Take effect only from the **start of the next billing cycle**
- Not apply retroactively under any circumstances

Until the new cycle begins:

- The existing plan terms shall remain fully applicable

18.4 Waiting Period Reapplication

Upon any plan modification:

- A **fresh waiting period shall apply**, as per the newly selected plan

During this new waiting period:

- The User shall not be eligible for claims, even if:
  - The previous plan had already completed its waiting period

---

18.5 Premium Recalculation

Upon plan modification:

- Premium shall be recalculated based on:
  - New plan base rate
  - Updated risk and age multipliers (if applicable)

No partial refunds or prorated adjustments shall be provided for:

- Unused coverage under the previous plan

18.6 Upgrade vs Downgrade Conditions

- **Upgrade (e.g., P1 → P2/P3)**:
  - Higher premium applies from next cycle
  - New waiting period applies
  - Enhanced benefits available only after waiting period
- **Downgrade (e.g., P3 → P1/P2)**:
  - Reduced premium applies from next cycle
  - Lower benefits apply immediately upon cycle start
  - Waiting period shall still apply if specified

18.7 Frequency Limitation

The Company reserves the right to:

- Restrict the frequency of plan changes, including:
  - Maximum number of modifications within a defined time period (e.g., 2 changes per 30 days)

Excessive modification attempts may:

- Be restricted
- Trigger risk reassessment

18.8 Anti-Gaming Clause

Any attempt by the User to:

- Upgrade to a higher plan immediately before or during a disaster
- Downgrade after high-risk periods to reduce premiums

Shall be considered **abusive behavior**, and the Company may:

- Deny plan changes
- Impose restrictions or penalties
- Flag the account for risk monitoring

18.9 Edge Case Handling

- **Plan change requested just before event (but not processed)**:
  - Existing plan remains applicable
- **Event begins during pending modification request**:
  - Modification shall be:
    - Cancelled, OR
    - Deferred to next eligible cycle
- **User switches location risk zones and requests plan change**:
  - Both changes shall be evaluated independently
  - Applied only in next billing cycle

18.10 Final Determination

All decisions regarding:

- Approval or rejection of plan changes
- Timing and applicability
- Waiting period enforcement

Shall be made by the Company using:

- System controls
- Risk evaluation models

Such decisions shall be:

- **Final, binding, and enforceable**

---

19. TERMINATION

19.1 Grounds for Termination

The Company reserves the right to **suspend or terminate the policy, with or without prior notice**, upon the occurrence of any of the following:

- **Fraud or suspected fraudulent activity**, as defined under Section 14
- Submission of **false, misleading, or manipulated information**
- **Repeated invalid or abusive claim attempts**, including:
  - Filing claims that do not meet eligibility criteria
  - Attempting to exploit policy conditions
- **Prolonged inactivity**, defined as:
  - No verified platform activity for **30 (thirty) consecutive days**

19.2 Immediate Termination Events

The policy shall be subject to **immediate termination without notice** in cases involving:

- Confirmed fraud or data manipulation
- Multiple coordinated abuse attempts

- Violation of applicable laws or platform policies

In such cases:

- All pending claims shall be **automatically rejected**
- No refunds shall be provided

19.3 Suspension vs Termination

The Company may, at its discretion:

- **Suspend** the policy temporarily:
  - During investigations
  - In cases of suspected irregularities

OR

- **Terminate** the policy permanently:
  - In case of confirmed violations

During suspension:

- Coverage remains inactive
- No claims shall be payable

19.4 User-Initiated Termination

The User may choose to terminate the policy:

- At any time through authorized channels

However:

- No refund shall be provided for:
  - Unused premium periods
- Coverage shall cease immediately upon termination

19.5 Effect of Termination

Upon termination:

- All rights and benefits under the policy shall **cease immediately**

- The User shall:
  - Lose eligibility for all future claims
- Any ongoing or pending claims:
  - May be reviewed and rejected at the Company’s discretion

19.6 Re-Enrollment Conditions

In case of termination:

- Re-enrollment shall be:
  - Subject to fresh underwriting and approval
  - Not guaranteed

In cases involving fraud or abuse:

- The User may be:
  - **Permanently blacklisted**, with no option for re-enrollment

---

19.7 Termination Due to Inactivity

Where termination occurs due to inactivity:

- The User may:
  - Re-enroll as a new applicant

However:

- Previous policy benefits, history, or pricing:
  - Shall not be carried forward

19.8 Edge Case Handling

- **User inactive due to disaster or valid external reason**:
  - May be evaluated on a case-by-case basis
- **Temporary inactivity (< 30 days)**:
  - May result in monitoring but not immediate termination
- **Frequent claim rejections without fraud**:

- May still lead to termination based on risk assessment

19.9 No Liability Post Termination

The Company shall bear **no liability** for:

- Any losses occurring after termination
- Any claims arising from events post termination

19.10 Final Determination

All decisions regarding:

- Suspension
- Termination
- Re-enrollment eligibility

Shall be made by the Company using:

- Internal risk frameworks
- Automated monitoring systems

Such decisions shall be:

- **Final, binding, and enforceable**, except through formal dispute resolution

---

20. FORCE MAJEURE

20.1 Definition of Force Majeure

“Force Majeure” refers to **extraordinary, unforeseeable, and uncontrollable events** beyond the reasonable control of the Company, including but not limited to:

- Large-scale natural disasters (e.g., severe floods, cyclones, earthquakes)
- War, civil unrest, or governmental actions
- Widespread infrastructure or communication breakdowns
- Systemic failures affecting data availability or financial systems

---

20.2 Impact on Policy Obligations

In the occurrence of a Force Majeure event:

- The Company's obligations under this policy may be:
  - **Temporarily suspended**, OR
  - **Delayed**, OR
  - **Modified proportionally**, depending on operational feasibility

---

20.3 Claim Processing Under Force Majeure

During such events:

- Claim processing timelines may:
  - Exceed standard limits
- Data required for validation may:
  - Be delayed or partially unavailable

The Company may:

- Process claims using **alternative or limited data sources**
- Apply **proportional settlement mechanisms** where full validation is not feasible

---

20.4 Proportional Reduction of Liability

In extreme scenarios involving:

- Mass claims exceeding system capacity
- Widespread disruption across multiple regions

The Company reserves the right to:

- **Cap or proportionally reduce payouts**, based on:
  - Available resources
  - Aggregate risk exposure

20.5 No Breach of Contract

Any delay, reduction, or inability to perform obligations due to Force Majeure:

- Shall **not be considered a breach of contract**
- Shall not entitle the User to:
  - Additional compensation
  - Damages or penalties

20.6 Resumption of Normal Operations

The Company shall resume standard operations:

- As soon as reasonably practicable after the cessation of the Force Majeure event

---

21. DATA PRIVACY

21.1 Categories of Data Collected

The Company may collect and process the following categories of User data:

- **Location Data**:
  - Real-time and historical GPS coordinates
- **Activity Data**:
  - Platform usage, login sessions, order activity
- **Earnings Data**:
  - Transaction records and income patterns
- **Device and Technical Data**:
  - Device identifiers, network data, application logs

21.2 Purpose of Data Processing

User data shall be used for:

- Risk assessment and underwriting
- Claim validation and eligibility determination

- Fraud detection and prevention
- System optimization and analytics

21.3 Data Sharing and Disclosure

The Company may share User data with:

- Partner platforms and service providers
- Third-party data verification agencies
- Regulatory or legal authorities (where required)

Such sharing shall be limited to:

- Legitimate operational, legal, or compliance purposes

21.4 Data Storage and Retention

- Data shall be stored securely using industry-standard safeguards
- Retention period shall be determined based on:
  - Legal requirements
  - Operational necessity

The Company reserves the right to:

- Retain anonymized data for analytics and model improvement

21.5 User Consent and Authorization

By enrolling in the policy, the User:

- Provides **explicit consent** for:
  - Data collection
  - Processing
  - Storage and sharing

Withdrawal of consent:

- May result in:
  - Inability to provide coverage

    - Policy termination

21.6 Data Security and Limitations

While the Company employs reasonable security measures:

- It does not guarantee:
    - Absolute data security
    - Protection against all cyber threats

The Company shall not be liable for:

- Data breaches caused by:
    - External attacks
    - User negligence

21.7 Edge Case Handling

- **GPS disabled by user** → Data unavailable → Claim rejection
- **Third-party API failure** → Alternative data sources used or claim delayed
- **Conflicting data sources** → System-preferred hierarchy applied

---

22. LIMITATION OF LIABILITY

22.1 Scope of Liability

The Company's liability under this policy is strictly limited to:

- The **payout amount calculated as per policy terms**

Under no circumstances shall liability exceed:

- The maximum benefit payable under the applicable plan

22.2 Excluded Liabilities

The Company shall not be liable for:

- **Future or projected income loss**

- **Indirect or consequential damages**, including:
  - Loss of business opportunities
  - Loss of goodwill or reputation
- **Emotional distress or mental suffering**
- **Punitive or exemplary damages**

22.3 No Guarantee of Income Continuity

This policy:

- Does not guarantee:
  - Continuous income
  - Employment stability
- Provides only **conditional compensation**, subject to:
  - All eligibility and validation criteria

22.4 Third-Party Dependencies

The Company shall not be liable for losses arising from:

- Failure or inaccuracies of:
  - Third-party data providers
  - Platform systems
  - Payment gateways

22.5 Technical and System Limitations

The Company shall not be responsible for:

- Errors, delays, or failures caused by:
  - System outages
  - Network disruptions
  - Data processing limitations

22.6 User Responsibility

The User assumes full responsibility for:

- Maintaining:
  - Accurate data
  - Active tracking systems
- Compliance with:
  - Policy terms
  - Platform requirements

Failure to do so shall:

- Limit or eliminate the Company's liability

22.7 Absolute Liability Cap

In all circumstances:

- The total liability of the Company shall be:
  - **Strictly limited to the eligible payout amount**, and
  - Shall not exceed any predefined caps under the policy

22.8 Finality Clause

All determinations regarding:

- Liability
- Compensation amount
- Applicability of exclusions

Shall be:

- **Final, binding, and enforceable**, except as provided under dispute resolution provisions

---

23. DISPUTE RESOLUTION

23.1 Dispute Intimation Timeline

Any dispute, grievance, or claim-related objection must be raised by the User within:

- **15 (fifteen) calendar days** from:
  - The date of claim decision, OR
  - The occurrence of the disputed event, whichever is earlier

Failure to raise a dispute within this period shall result in:

- **Permanent waiver of the right to dispute**

23.2 Mandatory Internal Review (Pre-Arbitration Stage)

All disputes shall first be subject to an **internal review process**, which shall:

- Be initiated through authorized channels
- Require submission of:
  - Supporting documents
  - Clarifications or additional data (if requested)

The Company shall:

- Review the dispute using:
  - System records
  - Verified data sources
- Communicate its decision within a **reasonable timeframe**

23.3 Binding Nature of System Data

During dispute resolution:

- **System-generated data and logs** shall be considered:
  - Primary and authoritative evidence
- User-provided data:
  - Shall be considered only if verifiable and consistent

In case of conflict:

- The Company’s validated data shall prevail unless proven otherwise.

23.4 Arbitration Clause

If the dispute remains unresolved after internal review:

- It shall be referred to **binding arbitration**, conducted in accordance with:
  - Applicable arbitration laws

Key conditions:

- Arbitration shall be conducted by a **sole arbitrator** appointed by the Company
- The proceedings shall be:
  - Confidential
  - Conducted in English
- The decision of the arbitrator shall be:
  - **Final and binding on both parties**

23.5 Limitation on Claims

Under no circumstances shall the User:

- Initiate:
  - Class actions
  - Group claims
  - Representative proceedings

All disputes must be resolved on an **individual basis only**.

23.6 Cost Allocation

- Each party shall bear its own costs related to:
  - Documentation
  - Legal representation
- Arbitration costs:
  - Shall be allocated as determined by the arbitrator

23.7 Interim Relief

The User agrees that:

- No interim or injunctive relief shall be sought that:
  - Disrupts the Company's operations or systems

23.8 Finality Clause

All dispute resolution outcomes shall be:

- **Final, binding, and enforceable**, subject only to remedies available under applicable law

---

24. GOVERNING LAW

24.1 Applicable Law

This policy shall be governed by and construed in accordance with:

- **Applicable insurance laws, contract laws, and regulatory frameworks**

24.2 Jurisdiction

Subject to the arbitration clause:

- Courts located within the **jurisdiction determined by the Company's registered office** shall have exclusive jurisdiction over:
  - Enforcement of arbitration awards
  - Matters not subject to arbitration

24.3 Regulatory Compliance

The policy shall operate in compliance with:

- Applicable regulatory requirements
- Any updates, amendments, or directives issued by relevant authorities

The Company reserves the right to:

- Modify policy terms to ensure compliance with evolving legal or regulatory standards

---

25. USER DECLARATION

By enrolling in this policy, the User hereby **irrevocably declares and agrees** that:

25.1 Accuracy of Information

- All information provided is:
  - True
  - Complete
  - Accurate

The User acknowledges that:

- Any misrepresentation or omission may result in:
  - Policy cancellation
  - Claim rejection
  - Legal consequences

25.2 Understanding of Policy Nature

The User confirms that they:

- Fully understand that this is a:
  - **Parametric, non-indemnity insurance product**
- Acknowledge that:
  - Payouts are based on predefined triggers, not actual losses

25.3 Acceptance of Automated Decision-Making

The User explicitly agrees that:

- All key decisions, including:
  - Eligibility

    - Claim validation
    - Payout calculation

May be performed using:

- Automated systems
- Algorithmic and data-driven models

Such decisions shall be:

- Binding and enforceable, subject only to dispute resolution provisions

---

25.4 Consent to Terms

The User confirms that they:

- Have read and understood all terms and conditions
- Agree to be bound by all provisions of this policy

25.5 Ongoing Compliance Obligation

The User agrees to:

- Continuously comply with:
    - Policy conditions
    - Data requirements
    - Platform obligations

Failure to do so may result in:

- Suspension or termination of the policy

25.6 Digital Acceptance

The User acknowledges that:

- Acceptance of this policy through:
    - Digital interfaces
    - Electronic consent mechanisms

Shall constitute:

- A **valid and legally binding agreement**, equivalent to a physical signature
